

Revised MTMC Mission Statement, Vision Statement and Core Competency

MTMC is in the process of updating its Strategic Plan to better reflect the current operating environment and to shift its focus from traffic management to surface distribution management. This shift in focus will enable MTMC to better support the USTRANSCOM Commander's vision of Global Distribution while continuing to allow MTMC to provide first class service to the Warfighter and other customers.

MG Dunwoody, Commander MTMC, approved the following changes to MTMC's Mission Statement, Vision Statement, and Core Competencies to more accurately reflect the Command's shift in focus from traffic management to surface distribution management:

ORIGINAL

MTMC Mission Statement

To provide global surface transportation and traffic management services to meet National Security objectives in peace and war.

MTMC Vision Statement

Provider of best value, end-to-end, surface transportation solutions...anytime, anyplace, on time...every time.

Core Competencies

**Surface Movements
Personal Property & Passenger Movements
Deployment Engineering**

REVISED

MTMC Mission Statement

Provide global surface distribution management and services to meet National Security objectives in peace and war.

MTMC Vision Statement

To be the provider of choice for innovative, value added, surface distribution solutions for the Warfighter...anytime, anyplace, on time...every time.

Single Core Competency

Surface Distribution Management
